PRODUCT ADVANTAGES

- **VISIOTRONIC control:** single button control with remaining time indicator together with text and graphic display
- **SENSO-ACTIVE resource management:** constantly measures the quality of the wash water and keeps the amount of rinsing needed in each rinse cycle to the minimum in order to guarantee a fully hygienic wash result
- **CLIP-IN wash and rinse arms:** wash and rinse arms can be removed with one hand and without any tools
- **USB-interface:** comfortable download of operational data in form of a protocol via USB
- **POWER-PLUS washing:** high-pressure washing to wash heavily soiled wash items
- **ROTOR-X wash system:** separate rotating upper and lower 4-spoke wash arms deliver dynamic wash power
- **Filter position sensor:** prevents operation without tank strainer
- **VAPOSTOP door system (optional):** prevents vapour to escape from machine when door is opened
- The optional **drain heat recovery** transfers heat from hot drain water to the fresh-water supply, saving up to 8.6 kW/h
- **GENIUS-X² fine filter system:** advanced filter system with pre-wash function reduces detergent consumption up to 35%
- **Loading height L:** above-average loading height of 860 mm
- The optional **exhaust heat recovery** uses steam to heat fresh feed water and reduces the amount of power needed, saving up to 5.2 kW/h
- **Hygiene programme:** for removal of calcium carbonate and other deposits from wash chamber
- **Intelligent energy management:** the available energy is used continuously. Thus, at a low total loading value the heating time gets reduced
- **EASY-CLEAN concept:** blue markings in the machine help the operator to identify the components which require cleaning
